Strategic and legal framework and procedure for the establishment of waste management regions

Драгана Механџић

Министарство животне средине, рударства и просторног планирања
Одељење за управљање пројектима

Regional centers for waste management

- Inter-municipal agreement clearly defines key issues , in terms of future management of the regional waste management system, wrights and obligations of the municipalities of the region and intermunicipal working group, conditions to joining or leaving region, wrights and obligations of the new regional company, etc
- Establishment of the regional company–Founding Act
 - type of company, activities, participation of municipalities, method of decision making, conditions to joining of new municipalities, etc

Legal and strategic framework

Inter municipal cooperation

- The Waste Management Strategy for the Period 2010 – 2019 ("Off. Gazette RS", No. 29/2010)
- Law on Local Self-Government ("Off. Gazette RS", No. 129/2007)
- Law on Communal Activities ("Off. Gazette of RS", no. 88/2011),
- Law on Waste Management ("Off. Gazette RS", No. 36/09)

Establishment of the regional company

- Law on Communal Activities ("Off. Gazette RS", No. 88/2011)
- Law on Public Enterprises and Activities of Public Interest ("Off. Gazette of RS", no.25/2000, 25/2002, 107/2005 108/2005 - corr. And 123/2007 - Dr. Law)
- Company Law ("Official Gazette of RS" no. 36/2011 and 99/2011)

Established Regions in the Republic of Serbia – April 2012

- 24 regions established
- Loznica – not included in the strategy
- Prokuplje – disbanded
- Kraljevo&Krusevac – merged
- Kragujevac – the region is not formed

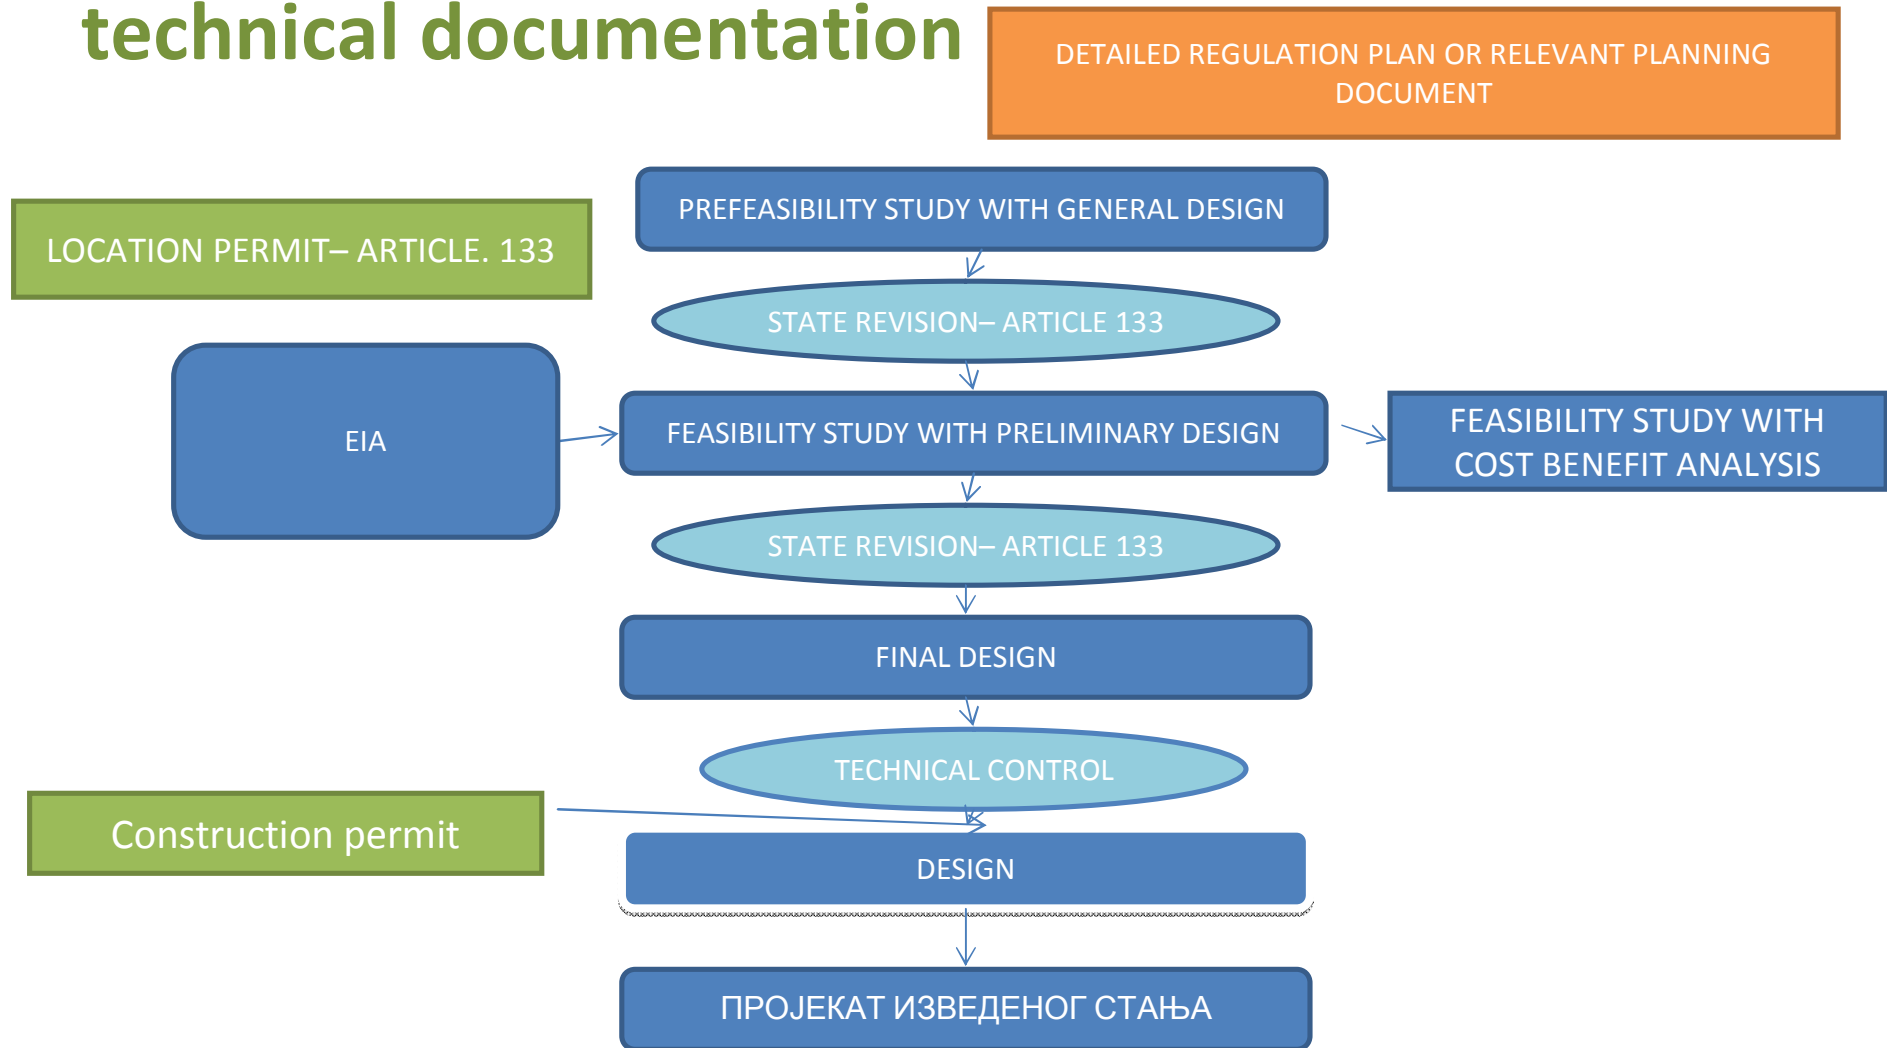

Regional centers in the Republic of Serbia

- A total of 7 regional landfills are built on the territory of the following municipalities: Kikinda, Lapovo, Leskovac, Jagodina, Užice, Pirot and Pančevo, 5 of them being put into operation
- 4 Regional centers are under construction: Sremska Mitrovica, Nova Varoš, Indija and Vršac
- Planning and technical documentation is being prepared for the regional centers for waste management in the regions of Smederevo, Zajecar, Subotica, Ub, Vranje and Novi Sad.
- Development of project documentation for Subotica and Ub/Kalenić are in the final stage, part of the funds for construction is planned from the EU funds

The process of establishing a regional waste management center

- Preparation and signing of the inter-municipal agreement
- The selection of a future landfill site
- Feasibility study for the adoption of the regional plan
- Regional Waste Management Plan and strategic assessment of the regional plan
- Alignment of local, strategic and action plans with the regional plan
- The establishment of joint regional waste management companies

Development of the necessary planning and technical documentation

BEFORE LOCATION PERMIT , it is necessary to resolve land property

Thank you for your attention!
